### **DETAILED ACTION**

## Claim Rejections - 35 USC § 112

- 1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
  - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claims 5-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 5 and 6 the inclusion of the "nipple" and the "aperture" in the end cap members and the end plates of the housing are seen to be part of the "first means for suspending" of claim 1, not separate therefrom as the language of the claim implies.

## Allowable Subject Matter

3. Claims 1-4 allowed.

### Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hamisch, Walsh, Yu, Lloyd, Beiderwell and the German document are cited to show various roll holding mechanisms. However, none of the prior art devices show or render obvious the combination set forth in claim 1.
